Thank God I Found You

I would give up everything Before I'd separate myself from you After so much suffering I finally found the unvernished truth I was all by myself for the longest time So cold inside And the hurt from the heart it would not subside I felt like dying Until you saved my life

Thank God I found you I was lost without you My every wish and every dream Somehow became reality When you brought the sunlight Completed my whole life I'm overwhelmed with gratitude Cause baby I'm so thankful I found you

I would give you everything There's nothing in this world I wouldn't do To ensure your happiness I'll cherish every part of you Because without you beside me I can't survive I don't wanna try If you're keeping me warm each and every night I'll be all right Cause I need you in my life

See I was so desolate Before you came to me Looking back I guess it shows that we were destined to shine After the rain to appreciate And care for what we have And I'd go through it all over again To be able to feel this way

Thank God I found you I was lost without you I'm overwhelmed with gratitude My baby I'm so thankful I found you

I'm overwhelmed with gratitude My baby I'm so thankful I found you
