

# The Way You Do

98 Degrees

Oooh, Oooh, ooh the way you do

You're heard this a thousand times before  
I'm in love with you  
You'll hear it at least a million more  
Baby that's the truth  
It's the small things that endear me  
every time that you are near me

The way you laugh  
at what I say  
The way you look  
at each new day  
The way your tears  
fall right on cue  
That's what I love about you  
Nobody else knows me by heart  
takes me where I can reach the stars  
Makes me believe in love  
The way you do

You've see me in the man that I can be  
and I'm thanking you  
You've given me all I'll ever need  
All I wanted, too  
I know how blessed I am  
girl, you are my best friend

The way you laugh  
at what I say  
The way you look  
at each new day  
The way your tears  
fall right on cue  
That's what I love about you  
Nobody else knows me by heart  
takes me where I can reach the stars  
Makes me believe in love  
The way you do

Oooh, Oooh, ooh the way you do  
(the way you do, oooh no no no oooh)  
ooh oooh ooh the way you do  
you've gotta listen baby

The way you laugh  
at what I say  
The way you look  
at each new day  
The way your tears  
fall right on cue  
That's what I love about you  
Nobody else knows me by heart  
takes me where I can reach the stars  
Makes me believe in love  
The way you do, the way you do, the way you do
