

The Way You Do

98 Degrees

Oooh, Oooh, ooh the way you do

You're heard this a thousand times before
I'm in love with you
You'll hear it at least a million more
Baby that's the truth
It's the small things that endear me
every time that you are near me

The way you laugh
at what I say
The way you look
at each new day
The way your tears
fall right on cue
That's what I love about you
Nobody else knows me by heart
takes me where I can reach the stars
Makes me believe in love
The way you do

You've see me in the man that I can be
and I'm thanking you
You've given me all I'll ever need
All I wanted, too
I know how blessed I am
girl, you are my best friend

The way you laugh
at what I say
The way you look
at each new day
The way your tears
fall right on cue
That's what I love about you
Nobody else knows me by heart
takes me where I can reach the stars
Makes me believe in love
The way you do

Oooh, Oooh, ooh the way you do
(the way you do, oooh no no no oooh)
ooh oooh ooh the way you do
you've gotta listen baby

The way you laugh
at what I say
The way you look
at each new day
The way your tears
fall right on cue
That's what I love about you
Nobody else knows me by heart
takes me where I can reach the stars
Makes me believe in love
The way you do, the way you do, the way you do
