

## If We Quit

98 Mute

I'm breaking down because were breaking up  
Sometimes too much is still less than enough

My soul is bleeding  
I can't just quit you  
We said forever  
My hearts still beating  
I'm telling you if we quit now we both lose  
It's sad but true If we quit now we both lose  
I'm warning you if we quit now we both lose  
We won't We won't lose

We started strong but somehow came up lame  
We saw we conquered too bad we never came

The conversations we held in future tense  
Now I wonder if we'll bother to end our sentences  
Some people spend their lives wishing for what we've got  
So darling please don't make this time we spent all for not  
I know that sometimes I can make you feel so crazy  
Sedate me if it makes things better  
But maybe what you need is a little insanity  
We could howl at the moon together
