

## Judge And Jury

98 Mute

Why must you insist on constant analysis  
Why can you just get over it  
Got a mind of my own  
I can not be your clone  
Ive got my own road to follow

Don't try to change my ways  
Don't try to twist my fate  
Don't try to program me or censor the words I say  
Don't humor me and then secretly disapprove  
Cause it will only turn me off and against you

Don't try to be my judge and jury  
Don't try to pass sentence on me  
Don't try to be my judge and jury  
Don't try to pass sentence on me

Your endless scrutiny will cause my mutiny  
Your rule Your reign is past my warranty  
Here's where I make my stand you never stood a chance  
I will not do that song and dance

Try and make me over now  
You'll drag us both down  
Somewhere neither of us wants to be  
Respect how I live my life  
And I'll consider your advice  
Cause it will mean so much more to me
