

## Watch Over Me

98 Mute

I dedicate my life as I dedicate this song  
So your loving memory will never be gone  
Your message and your song will continue on  
The positive that you created shall never be undone  
You taught me everything I know and everything I do  
Taught me how to live my life and to always be true  
True to your friends and your family  
True to your heart be who you want to be  
You'll forever be my mentor forever be my friend  
'cause brotherhood's the rule which can not bend  
You'll be truly missed as you were truly loved  
I hope you're watching me from up above  
We will live our lives in your memory  
We will try to be the best that we can be in your memory  
Your short time on earth was very well spent Some people they live 80 years and never make a dent  
But you changed the world with the words that you would write  
And taught us all to always fight the good fight  
And I know you're watching over me from above In the center of my heart is where you will forever be  
From the center of my heart is where you'll never leave  
There's no way your memory will ever fade away  
Because of all the happiness and the goodness that you gave  
In my heart is where you'll always be you'll always be with me  
Nobody can take away the memories we'll always have the memories  
I remember you always looking out for me  
Putting me on your shoulders so I could see  
Being the best brother you knew how to be  
I can still feel you looking over me  
And it makes me smile to know you're still watching over me.
