

The ones who had the brightest view
They total now but very few
And those who brought us no relief
And all those lying there beneath

And when you see them
It makes you care
That maybe someday
You'll be there
The Brightest View (View)

You know it just may come to pass
The rust may fall upon our grass
You'll hear the sound and you will cry
Then soon to kiss the earth goodbye

And when you see them
It makes you care
That maybe someday
You'll be there
The Brightest View (View)

Become aware (ware)
You'll be there (There)
Takes one dare (Dare)
Stop to care (Care)
Here or there (There)
Your voice tuner

And when you see them
It makes you care
That maybe someday
You'll be there

The Brightest View (View)
The Brightest View [Repeat x7]
