

This is me and my desire  
Taking all that I require  
Such a pretty sight to see  
And there's nothing left for me  
Well you know it's very funny  
And I don't have much money  
Change my colour it's a dare  
Change my face and my hair

Don't want to be a moving part  
Back door ladies rearranger  
Don't want to feel the cold nights bite  
In and out of my life

Fascinated for a while  
It's the colour of your smile  
And it's plain there's nothing free  
It's not good enough for me

It's a break up such a made up  
What do you desire  
No more fake up need a shake up  
What do you desire

This is me and my desire  
Taking all that I require  
Well you know its very funny  
Such a pretty sight to see

This is me and my desire  
Taking all that I require  
Well you know its very funny  
And I don't have much money  
Me and my ? me and my  
Me and my desire  
Me and my desire
