

It's just another story  
I've heard it all before  
And you don't have to tell me  
It's just another score  
Riot in the city  
Is getting out of hand  
And there's no use in asking  
We'll get it on demand

Nobody knows... that's the way it goes  
Go.. go.. go..goes

Well it's a special story  
The news that marks the beat  
And if you're gonna believe it  
It makes the day complete  
There's crowds of people standing  
The scenery is set  
So what was the explosion  
They haven't got me yet

Nobody knows... that's the way it goes  
Go.. go.. go..goes

It don't make no difference  
If you find that you don't care  
I bet you any money  
You would if you were there  
And there's always someone willing  
To look the other way  
There's a very big difference  
To what they say

Nobody knows... that's the way it goes  
Go.. go.. go..goes
