

# Foolish Ways

9th Prince

Oooh-oooh ooh  
Ohh ohh ohh  
Whaat.

You don't know nothin' 'bout me  
How you just comin' at me  
With your game, just you wait and see  
Boy, one day you're just so nice and sweet  
And then just wanna play me  
Check yourself cuz you ain't all you seem to be

Aiyo forever my lady, hold me down with the .380  
Love is shitty but it's all gravy baby  
Caramel complexion is crazy, opposite of lazy  
Swing low on the daisy, only if my honeycomb blaze me  
Stop breakin' my balls, 9th Prince stands tall  
Always there when you call before you walked out of court  
You broke my gold album, snapped it on the wall  
Girlfriends jealous, prayin' for our downfall  
Spendin' nice out of state, wearin' Victoria Secret  
Lingerie, reminisce about our first day we made love  
Off old school Kay Slay mixtapes  
Even though we fight you never change a heart of my shipmate  
Baby girl holdin' weight like Trina  
Jewelery shoppin' in Medina with the Nina  
Charged with a misdemeanor, more cleaner  
Than Cleopatra, tell me have you see her?  
Ballet classes in the arena like ballerina  
I duely fiend for her body  
Spendin' dollars like Bill Cosby  
Keepin' you happy is my hobby  
But still you say I'm sloppy  
If love was a crime you'd be charged with heart robbery  
Holiday Inn, platinum skins  
You my best friend, we a combination like juice and gin  
Mercedes Benz, I'm about to blow like wind  
Complete big house on the low out in Gaten Island  
Baby boo you wildin'

You think you can catch up to me  
My power is your destiny  
It's my game, I'm gonna make you see  
Boy you don't know nothin' 'bout me  
So you won't be comin' at me  
With your fool ways, you hear me when I say...

9th Prince used to be a heartbreaker  
Now I'm the Undertaker, baby girl keep gettin' paper  
One day we'll be makin' love in the skyscraper  
My Foolish Ways made you a hater  
Found phone numbers with my tapin' of Fantasia  
Caught my holdin' hands with Aiasia  
Your little sister blew me up like Skytel pager  
Callin' me out my name like I'm Elaine  
Every man is a dog, it ain't the same  
Like P.R., who's to blame?  
Love is like crack/cocaine, get addicted to the wicked games

Crafted, into the hall of shame  
With your birthday how you want it, Kawasaki or Mazurati?  
Never could stand you dancin' with other brothers in parties  
You made me jealous hangin' with the Goodfellas  
Ain't nothin' no one could tell us  
Big as the secret lovers  
Long hair, brown skin like Donna Summers  
Baby girl you're my Wonder Woman.. Wonder Woman

[Chorus x2]
