## **Forgive and Forget**

## A Day to Remember

I feel like a runaway Seeing the light of day for the first time I'm drawing the line

It's hard to care when you know it all In slow motion I watch you fall Like you're blind, thoughts poison the mind I always bend when it comes to you I think you'll change, but you never do You never do, I enable you

Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget

Wish that I could say this to your face Something different, something brave Wish I would, but I never could I feel you slowly pulling me in I try to help, but it's sink or swim And you're a weight, there's comfort in pain

Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget

You've drained all the love I had All I had for you You've drained all the love I had All I had for you All I had for you

Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget Let me down, let me down like only you know how Shot me out, shot me out Forgive and forget, forgive and forget
