

To Raise The Nation

A Faylene Sky

Here we are
Here we stand
And we lay down for no one
We are the spirit of the night

Here we walk closer in the dark
And we're done waiting for you

I wish that I could see it through your eyes
And if your love goes so far
Tell me why I'm standing alone, alone in the end

We'll start a fire in our hearts
A light in the dark to guide the way

Here we walk closer in the dark
And we're done waiting for you

I wish that I could see it through your eyes
And if your love goes so far
Tell me why I'm standing alone, alone in the end

Ladies and gentlemen
Stand up
Stand up and shout
I'm not the center of your universe
Stand up
Stand up and shout
I'm not the center of your universe

I wish that I could see it all, could see it all through your...

I wish that I could see it through your eyes
And if your love goes so far
Tell me why I'm standing alone, alone in the end

I wish that I could see it through your eyes
And if your love goes so far
Tell me why I'm standing alone, alone in the end

You'll ask forgiveness for the last time
Your prayers and promises are falling on deaf ears
This is our final stand
And here we start a revolution
And inspiration that will raise the nation
