

# Whispers

A Faylene Sky

Just listen now

Listen for the whispers to show us the way (the way)  
Back to another place (another place)  
Where we can stay the same, stay the same.

We built our lives, with your lies.  
Our throats exposed, to their knives.

We've seen and had enough, and it's come to this.  
They can't tell us, what to believe. Believe.  
They can't tell us, what to believe. Believe.

We'll carry on, but it's over. Now it's over.  
We'll carry on, but it's over. Now it's over.

Listen for the whispers to show us the way (the way)  
Back to another place (another place)  
Where we can stay the same, stay the same.

I've seen this world, I've seen enough  
To believe I'm not alone.  
I've seen this world, I've seen enough  
To believe I'm not alone.  
I've seen this world, I've seen enough  
To believe I'm not alone.  
I've seen this world, I've seen enough  
To believe I'm not alone.

And we will prosper and become  
The ones to show them light.  
Never see, they'll never see.  
The plot against them.

We're side by side, with love in our hearts  
We were meant for this.  
We're side by side, with love in our hearts  
We were meant for this.

We'll carry on, we'll carry on...

Listen for the whispers to show us the way (the way)  
Back to another place (another place)  
Where we can stay the same, stay the same.

Parasites will fight again, to feed again  
But they will know, and they will know  
That it won't be long till they repeat.
