

Oasis

A Great Big World

Don't cry,
You're mine
For forever
For forever
I need
You now,
More than ever
More than ever

Head full of lies
Sun in my eyes
You make it easy
Don't look away
These are the days,
You gotta believe me!

When we're lost in a desert night
and we're chasing our paradise
When we can't fight another fight
We're gonna make it,
You're my OASIS
You're my OASIS
You're my OASIS
You're my OASIS

This life
Is made
For each other
For each other
Crossed lines,
Mistakes,
There's no other
There's no other

Head full of lies
Sun in my eyes
You make it easy
Nowhere to go
I'm already home,
You gotta believe me!

When we're lost in a desert night
And we're chasing our paradise
When we can't fight another fight
We're gonna make it,
You're my OASIS
You're my OASIS
You're my OASIS
You're my OASIS

As I roam through the wasteland,
You're the one thing I need
I see you off in the distance,
You're my OASIS
You're my OASIS

When we're lost in a desert night

And we're chasing our paradise
When we can't fight another fight
We're gonna make it, make it, make it make it
When we're lost in a desert night
And we're chasing our paradise
When we can't fight another fight
We're gonna make it, make it, make it, make it
You're my OASIS
You're my OASIS
You're my OASIS
You're my OASIS
