

## Early Morning

a-ha

Early morning  
Eight o'clock precise  
I see the lonely August sun arise

Say you know  
You will  
Move me like you do

Out on the fields...  
I'm waiting the whole night through  
Early morning, early morning, yeah

Ran the whole way  
Down to the tracks  
Through the doorway  
Then a last look back

Say you know  
You will  
Save me like you do

Out on the fields...  
I've waited the whole night through  
Early morning, early morning, yeah

I climbed all the stairways  
To find the rooftop clear  
Got the shotgun lying with me here  
Say you know  
You will  
Move me like you do

Out on the fields...  
You know how it feels, yeah  
Early morning, early morning, yeah

Early morning  
Eight o'clock precise
