## **Shapes That Go Together**

When you were wrapped in tangles I was free And when you were undecided I believed It's alright, tonight On a deep blue mountain high The shapes that go together You and I When you were filled with longing I belonged When you were weak from trying I was strong But it's alright, tonight On a deep blue mountain high The shapes that go together You and I The shapes that go together You and I Childhood winters Come to me Whisper softly So tenderly I know, I walked 25 miles to hold you Just to find you'd moved away When you were wrapped in tangles I was free And when you were almost blinded I could see But it's alright, tonight On a deep blue mountain high The shapes that go together You and I The shapes that go together You and I You and I (The shapes that go together)
