

# Thought That It Was You

a-ha

I thought that it was you  
The things you saw me do  
They were true

Little did I know  
You found me in your joy  
And there was I, a little boy

My shadows they're not new  
My soul's split in two  
Lord, I thought that it was you

This Christmas snow that falls  
Gives silence to us all, amen, amen

You know my deepest sin  
You've seen me deep within  
So fill me now like wind  
And let the miracle begin

There's a river and you know  
There's a place we used to go  
That's where I throw our ashes now

I must have walked into a cave  
Among these things that you must save  
And there I touched the grave

You know my deepest sin  
You've seen me deep within  
But fill me now like wind  
And let the miracle begin

You know my deepest sin  
You've seen me deep within  
But fill me now like wind  
And let the miracle begin

Sometimes I felt so sure  
When I opened up your doors  
That there'd been no one there before

You know my deepest sin  
You've seen me deep within  
But fly, fly higher from it  
Just look into my eyes

You know my deepest sin  
You've seen me deep within  
But fill me now like wind  
And let the miracle begin

And the secrets that you say
