Love Is

If I were rain You could watch the colours bleed If I were time We could go to where we're happy If I were tease Every evening we'd die laughing I am love I am love Love is not not good enough (love is...) Love is not not good enough (love is...) Love is not not good enough (love is...) Love never is If I were words I would turn a phrase of you If I were star The sky-like eye would open If I were the sea A wave from you might drown me I am love I am love Love is not not good enough (love is...) Love is not not good enough (love is...) Love is not not good enough (love is...) Love never is Love, love is everywhere Every day Every way She's got a mind of her own Love is bigger than me Bigger than you so Just let in in and stop thinking to yourself that I am love I am love Love is not not good enough (love is...) Love is not not good enough (love is...) Love is not not good enough (love is...) Love never is
