

# My Little Lighthouse

A House

You give me inspiration  
You give me love  
My little lighthouse  
And the brilliant things that you do  
I think I could like you

Yes, we could walk for awhile  
Or simple talk for awhile  
We could watch a video show  
Or catch a picture show, don't you know  
We could shower, put on a change of clothes  
And go where everyone goes  
We could stay in  
Get a cheap bottle of wine and dine

You give me inspiration  
You give me love  
My little lighthouse  
And the brilliant things that you do  
I think I could like you

We could go where the wind blows o'er your hair  
As it blows, watch it show the sky, the sky is much darker now  
But you wouldn't like that, no, you wouldn't like that

And if I could see out, I wouldn't have to shout  
There's no need to pout

You give me inspiration  
You give me love  
My little lighthouse  
And the brilliant things that you do  
I think I could like you

We could take a weekend away  
Do holiday things, get drunk and fall down  
And no aspirations you hold  
No heart made of gold, tell things just as they're told  
So let me tell you now there's no silver lining  
There's those that don't want to see  
And the story so far rings like a shotgun in your head

You give me inspiration  
You give me love  
My little lighthouse  
And the brilliant things that you do  
I think I could like you
