Heart on fire

A Life Divided

I don't wanna talk when you don't hear me I don't wanna love if you can't feel it and I don't wanna smile when you are laughing about me and I don't wanna die, when you don't care at all. (Do you care at all?)

I set your heart on fire, your heart on fire Set your heart on fire, your heart on fire I'll do what I can to be more than I am for you tonight

I don't wanna call when you're not listening I don't wanna crawl If you're not watching And I don't wanna fly when you ain't coming with me and I don't wanna die when you don't care at all (Do you care at all?)

I set your heart on fire, your heart on fire Set your heart on fire, your heart on fire I'll do what I can to be more than I am for you tonight

For some reasons it's not how it's supposed to be feels like searching for the way in a one way street God given but a devils mistake I'll be your slave if you just let me stay

I set your heart on fire, your heart on fire Set your heart on fire, your heart on fire I'll do what I can to be more than I am for you tonight
