

Only Night

A Life Divided

dream of me
I'm your spreading disease
dream of me
your heaven is hell to me

close your eyes
take the knife
please hesitate
to realize
everything was just a fake

and all of your thoughts
they get in my way
and all of your dreams
they display my pain

only nights
we're alive
and all these lies
make me wanna die

all of my dreams
they get in my way
and all of my thoughts
they make me run away

close your eyes
take the knife
don't hesitate
to cut inside
take my life
to sooth your pain
