

The Needle in You

A Pale Horse Named Death

I find you in your corner, yearning for me
Sobriety has left you, begging please
I was sent here to you, to break you down
I am Lucifer, bring you your broken dreams

Chasing that dragon in you, across the sky
I'll help you with your problems, deep inside
Let me push you right over there, over the edge
I'll help you burn the spoon,
Bring you your overdose

I am the needle in you
Anti-Christ before your eyes
I am the poison in you
Assist in your suicide

Please god forgive me
I have sinned again

I find you dead and bloated
Fed your disease
Asphyxiated from your swollen tongue
I came and brought to you, your demise
I'll take all the credit for,
Bring you your suicide

I am the needle in you
Anti-Christ before your eyes
I am the poison in you
Assist in your suicide
