

## Gravity

## A Perfect Circle

Lost again  
Broken and weary  
Unable to find my way  
Tail in hand  
Dizzy and clearly unable to  
Just let this go

I am surrendering to the gravity and the unknown  
Catch me heal me lift me back up to the sun  
I choose to live

I fell again  
Like a baby unable to stand on my own  
Tail in hand  
Dizzy and clearly unable to just let this go  
High and surrendering to the gravity and the unknown  
Catch me heal me lift me back up to the sun  
I choose to live, I choose to live, I choose to live

Catch me heal me lift me back up to the sun  
Help me survive the bottom

Calm these hands before they  
Snare another pill and  
Drive another nail down another  
Needy hole please release me

I am surrendering to the gravity and the unknown  
Catch me heal me lift me back up to the sun  
I choose to live, I choose to live
