

Body And Blood

A Perfect Murder

Discipline is the blood of life
Strenght an only friend
No time for sorry
It's just time to move on
I'm the last man

Castration
Furstration
You don't mean a fuck to me
Stronger by the hour
What we had is soured
Your thoughts ain't shit to me

Intimidation
Domination come the taste
The hate I bleed
I am the new found power
The drug you bow to

Your weakness is all you need

Anti-life for the weak
No sympathy for the downtrodden
Will rise above my falls
And crush the doubters one and all (2x)

Embrace the fear until the end
Never tinkering about the future
Never considiring the end
Your strenght is all you need
