

## Deceit Of Man

### A Perfect Murder

Unassuming eyes, never lie to me for long  
Circumstances never tell the whole story  
Deceit is priceless  
You weak fuck, you tried to play me, to embarrass me now  
I shut you out, I shut you down  
Into a corner you crawl

Scared of who I am  
Scared of what I might become  
Show me truth and I'll show you the lies  
This is my war, never compromised

Vengeance over vulnerability, never stopping to breathe  
Just hunt and kill  
It's a shame there's no guilt  
Nothing to stop me from crushing you and all that you've built  
for yourself  
Your pain is a gift to me  
Your tears and screams cleanse me  
Redemption never fails me  
I rise up from the ruins around  
I'm stronger, harder, hungrier for new life that awaits me

Scared of who I am  
Scared of what I might become  
Show me truth and I'll show you the lies  
This is my war never compromised

Conductor of pain  
Your discomfort is my gain  
I'll lift your spirits and drop them again  
No cares, I never cared  
You weak fuck, you tried to play me, to embarrass me now  
I rise up from the ruins around me  
Stronger, harder, hungrier for new life that awaits me
