

## Exploding Head

### A Place to Bury Strangers

People  
Living in the dark  
State protecting life then tear is apart  
Cause commotion cause a scene cracking skull  
Expanding seam  
Every time there is a choice it's tear it apart  
Fall  
High  
Don't ever touch the ground  
Know  
No wars are ever won  
When they can't kill me then know that it's safe  
To come back come back come back exploding head  
Touch  
By the hand of god  
It's a secret that is held now fire the gun  
Sit down love and tighten up the pace  
Commands close eyes command shoot off the face  
Lovers  
Bound by their tongues  
Bound by their hands  
Bound by love  
Intentions shadow truth and the motivation's done  
The secret was a lie and the truth was never won
