

Fill The Void

A Place to Bury Strangers

You wanna be the vision at all, you wanna be a loser
Not even you lived it all, you wanna feel so worth
You wanna get so right there, you wanna close this (?)
You wanna take it easy, you wanna feel the void
You wanna feel the void

You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void

You wanna change the nothing, (?) so lucky
All you wanna is go home all night, take everybody at all
You wanna have another, (?) without cause
You wanna be all of your mind, you wanna feel the void
You wanna feel the void

You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void

Don't say nothing, a promise you will take
Could it ever sit up? How do you lie?

You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void

You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void
You wanna feel the void, you wanna feel the void
