

## Smile When You Smile

### A Place to Bury Strangers

I'm a little child  
Smile when you smile  
Joy when you're around  
And sad when you are down  
Cause I found love  
I want you next to me  
And I found life  
With you here  
You make life warm  
You make me happy when you  
Tell me everything will be okay, hey  
Let's make love  
You make me happy now but  
You can see my heart change with the sun  
Now I'm feeling sad so I want you  
I want you  
I still want you  
I want you  
I still want  
You won't talk to me  
And I can't make you smile  
I just bring you down  
And you don't want me here  
Though I still feel love  
And want you next to me  
Cause I feel life  
When you're around  
We made life warm  
We were so happy then but  
You won't tell me everything's okay  
We had love  
And I want it all again  
I can see your heart change with the sun  
Even though you're done I still want you
