

## Are You Catching My Drift Yet

### A Rocket to the Moon

I'll leave you behind  
It's not the first time  
We've been through this  
It happens every time  
You hear the sound of my name  
At the top of their lungs  
And this dumb game you play  
Isn't fooling anyone  
And now I wanna know,  
Are you catching my drift yet?  
You seem to be taking control  
Are you catching my drift yet?

Now that we all said goodbye  
Don't try and fix it up again  
It's my fault that you can't stand a thing I do?  
And don't lie cuz we know that you want to  
Now I can't seem to comprehend  
How the things that your sayin'  
Is not what you meant at all  
Because the last time I checked  
These so called "friends"  
Were you're "friends till the very end"

And now I know that I have made big plans  
And I've said big things that have blown out of my hands  
But these hands have counted a lot and have been counted on  
And now a handful is all that's left  
Can you just look at how things were  
And how they are right now  
And please just tell me that I am right

Just tell me why it's so hard  
For you to be wrong for once in your life  
Will it really kill you to not be right this time

Now that we all said goodbye  
Don't try and fix it up again  
It's my fault that you can't stand a thing I do?  
And don't lie cuz we know that you want to  
Now I can't seem to comprehend  
How the things that your sayin'  
Is not what you meant at all  
Because the last time I checked  
These so called "friends"  
Were you're "friends till the very end"
