

# No One Will Ever Get Hurt

## A Rocket to the Moon

She keeps me up after late phone calls  
Dreaming of her arms around me  
Well, I think she's beautiful  
She thinks I'm going blind

Well, I could spend my life tryin' to write these songs  
And I could spend my time tryin' to right my wrongs  
Oh, she's worth it, she says that I'm the one

And no one can love you like I can, honey  
We gotta make this work 'cause when I get to runnin'  
You get to thinkin' that one of us is gonna get hurt

We could walk around this town like we own the world  
But everybody bows at your feet  
Well, they think you're crazy, girl  
Well, crazy for a guy like me

When I'm gone  
You're the only one I want  
When I'm here  
You're the only one I need

'Cause no one can love you like I can, honey  
We gotta make this work 'cause when I get to runnin'  
You get to thinkin' that one of us is gonna get hurt

You're right, girl  
Well, I don't know what's wrong with me  
'Cause you need somebody  
And I need some growing up  
You're the one who's gonna get hurt

And no one can love you like I can, honey  
We gotta make this work 'cause when I get to runnin'  
You get to thinkin' that one of us is gonna get  
(You're gonna get hurt)

You're right, girl  
Well, I don't know what's wrong with me  
You need somebody and I need some growing up  
You're the one that said that I need somebody  
And you need some growing up  
So no one will ever get hurt
