

Whole Lotta You

A Rocket to the Moon

Let's go out, get lit, get loose tonight
Sing a song, get wrong, make it feel alright
Drinks on ice
Stars in our eyes
Ain't got a lot of money
But you're a dime

Hey hey
All I need is a whole whole
Lot of you everyday day's
A holiday ain't nothing we can't do
Now all I need baby
Is a little time
And a whole lot of you
A whole lot of you

Get me buzzed on your love
Lemme steal a kiss
Bubblegum on your tongue
No I can't resist
Gotta leave all your worries at the door
'Cause life ain't nothin but a big dance floor

Hey hey
All I need is a whole whole
Lot of you everyday day's
A holiday ain't nothing we can't do
Now all I need baby
Is a little time
And a whole lot of you
A whole lot of you

Nobody wanna be alone, alone tonight
So come on baby take me home, home tonight
Nobody wanna be alone, alone tonight
So come on baby take me home, home tonight
Nobody wanna be alone, alone tonight
So come on baby take me home, home tonight
Nobody wanna be alone tonight
So come on and take me home

Hey hey
All I need is a whole whole
Lot of you everyday day's
A holiday ain't nothing we can't do baby
Hey hey
All I need is a whole whole
Lot of you everyday day's
A holiday ain't nothing we can't do
Now all I need baby
Is a little time
And a whole lot of you

That's all I need baby
Is a whole lot of you, and me, all night, let's get it right

Nobody wanna be alone

Some come on, take me home

Nobody wanna be alone, be alone baby
And no, you don't, wanna be alone, tonight
