

Down The Wire

A.S.A.P.

Hearts on fire cause down the wire
Comes a voice from my past
My eyes ablaze I have no espace
It's a need I've got to ask

Believe right from the start
Hold on to waht you've got
Have faith in someone
Down the wire
Pure in spirit, strong at heart
Long in truth but short of the mark
I know you time will come one day

Down the wire comes my heart
Worlds apart but you're next to me
Down the wire all the days
You been gone but you promised me
You can cross me a river, and you see that I do
Down the wire
Hearts on fire cause down the wire
Comes a voice from my past
Would I miss your touch, would I miss my own sight
There's a heart that's beating down the line tonight

Believe right from the start
Hold on to waht you've got
Have faith in someone
Down the wire
Pure in spirit, strong at heart
Long in truth but short of the mark
I know you time will come one day

Down the wire comes my heart
Worlds apart but you're next to me
Down the wire all the days
You been gone but you promised me

You can cross me a river, and you see what I do
Down the wire
You can clibm me a mountain
And you'll see what I do
