

# The Lamplight

A Silent Film

I will always ask  
I will always wonder  
I don't need to hear the words  
I don't need an answer from you

I'll always be here  
I'll always want you to know  
You are my lamplight  
You guide me where I go

All my hopes - All my fears  
Collide when, you are near

I don't want it all  
We all guard our mysteries with a grin  
Or write them in a song  
Just enough to let the light in

All my hopes - All my fears  
Collide when, you are near

Love is like a mast  
That shivers at her mercy  
These sails maybe tattered and torn  
But she's not sinking easy
