

## Thousand Mile Race

A Silent Film

I think you made the right choice  
I didn't think you'd run away  
The thousand miles between us became a race  
I meet you on the further shore,  
I know I've said this before  
Don't you know that I want more for you  
and all the things that we could do?  
There's no more time for wasting cos I...

I'm taking back today, I didn't mean to give it away  
The thousand miles between us became a race  
I'm taking back today, I didn't think you'd run away  
The thousand miles between us became a race

Did we make the right move?  
I only want the world for you  
So many things we may have to let go  
Are you fearful to compromise?  
We're running for the race of our lives  
Don't you know that I want more for you  
and all the things that we could do?  
There's no more time for wasting cos I...

I'm taking back today, I didn't mean to give it away  
The thousand miles between us became a race  
I'm taking back today, I didn't think you'd run away  
The thousand miles between us became a race

And every step's another mistake  
to take me further from your point of view  
And every step's another distant space  
to lose my wicked soul so far from you

Til you're home again  
Til we're whole again...

I'm taking back today, I didn't mean to give it away  
The thousand miles between us became a race  
I'm taking back today, I didn't think you'd run away  
The thousand miles between us became a race...
