## All It Takes For Your Dreams To Come True

## **A Skylit Drive**

The fire rages in me
Never want to see the roses on your door
The glass that separates our touch
Soaring into the unknown skies fearing what we're fighting for

This is a war we cannot win!

Our last time to make stars collide right before our eyes Believe in everything .. everything you've ever known Reciting words we lost .. these years will never be untold I won't be alone

The fire rages in me Daylight fights through the night with the cries of redemption The sun ignites the light in our eyes

... And is this possible

Our last time to make stars collide right before our eyes Believe in everything .. everything you've ever known Reciting words we lost .. these years will never be untold I won't be alone

This time we fight  $\dots$  side by side  $\dots$  you and I

The bringers of light ... the teeth in the night I won't be alone
