

# Bring Me A War

A Skylit Drive

Bring me a war, bring me a war

Are you a soldier? Stand up and raise your fist  
I'll fight forever, forever until the end  
Bring me a war

Bring me a war, failure is fleeting  
A glimpse of before vanishing quickly  
We'll make them believe the blood that we bleed sets us free  
Bring me a war, bring me a war

You're not alone now, stand up and raise your fist  
We are forever until the end  
Bring me a war

Bring me a war, failure is fleeting  
A glimpse of before vanishing quickly  
We'll make them believe the blood that we bleed sets us free  
Bring me a war, bring me a war

Bring me a war, skies will come crashing  
Like never before, we're everlasting  
We'll make them believe the blood that we bleed sets us free  
Bring me a war, bring me a war

Bring me a war

Are you a soldier? Stand up and raise your fist  
I'll fight forever until the end  
Don't let your fears guide your sins  
Let them in

Bring me a war, failure is fleeting  
A glimpse of before vanishing quickly  
We'll make them believe the blood that we bleed sets us free  
Bring me a war, bring me a war

Bring me a war, skies will come crashing  
Like never before, we're everlasting  
We'll make them believe the blood that we bleed sets us free  
Bring me a war, bring me a war

Bring me a war  
Bring me a war  
Bring me a war

Are you a soldier? Stand up and raise your fist
