

Find A Way

A Skylit Drive

There's nothing left to hide, I failed before I tried
Cut me open, I'm not staying
I fall apart inside, I'm running out of time
Reach me before I stop breathing

I'm running out of time

We will find a way (A way)
We will find a way (A way)
And when there's nothing left to say
We will find a way
We will find a way

Where is my self control? You've taken all I've known
You take everything and leave me with nothing
Into the void I go, forever the echo
Over and over, feels like we're stuck on repeat

Stuck on repeat
Over and over

We will find a way (A way)
We will find a way (A way)
And when there's nothing left to say
We will find a way
We will find a way

You never want to talk about what you think about
What you have right here
It never was enough for you, it's all for you
I never thought I'd see the day
I'm at my darkest place, are you happy now?
Are you fucking happy now?

We will find a way
We will find a way
When there's nothing left to say
I will find my way

No, it never was enough for you
No, it never was enough for you
