

# Risk It All

## A Skylit Drive

Fire, fire walk with me  
With me, with me, with me

We are breaking down these walls  
We shoot to kill, we're gonna risk it all  
This is the time of the fall, you think you want it  
You want it, then come on, come on, come on

Fire, fire walk with me  
Light up your Molotov  
Throw it up and up and up and up  
Burn

We'll burn it to the ground, bring the monuments down  
This is a free for all, we're gonna risk it all  
We'll take it to the streets, rewrite our history  
This is a free for all, you better, you better risk it all

Breaking down these walls, we've crossed the line  
We're gonna risk it all till your downfall  
You think you want it, you want it  
Then get up, get up, get up

Fire, fire walk with me  
Light up your Molotov  
Throw it up and up and up and up  
Burn

We'll burn it to the ground, bring the monuments down  
This is a free for all, we're gonna risk it all  
We'll take it to the streets, rewrite our history  
This is a free for all, you better, you better risk it all

We are the noise, the voice, the ones in your ear  
We are the truth on your doorstep, the face that you fear  
We are the noise, the voice, the ones in your ear  
We are the truth on your doorstep, the face that you fear

(Fire, fire walk with me)  
(With me, with me, with me)

We'll burn it to the ground, bring the monuments down  
This is a free for all, we're gonna risk it all  
We'll take it to the streets, rewrite our history  
This is a free for all, you better, you better risk it all

Risk it all  
Risk it all  
Risk it all  
You better risk it all

(Fire, fire walk with me)
