

# Shock My Heart

## A Skylit Drive

All I see is the violence  
It follows you to your grave  
All I hear is the silence  
Of my heartbeat

It's like I'm falling from a rooftop  
Waiting till the doctors arrive, shock to my heart  
I'm on the edge of my last breath  
Reaching for the stars in the sky  
Give me a reason to try

Shock to my heart  
Shock to my heart

It's biochemical defense  
Coursing all through my veins  
All I hear is the silence  
Of my heartbeat

It's like I'm falling from a rooftop  
Waiting till the doctors arrive, shock to my heart  
I'm on the edge of my last breath  
Reaching for the stars in the sky  
Give me a reason to try

Shock to my heart  
Shock to my heart  
Shock to my heart

Shock to my heart  
Shock to my heart

It's like I'm falling from a rooftop  
Waiting till the doctors arrive  
I'm on the edge of my last breath  
Reaching for the stars in the sky

Give me a reason to try (A reason to try)  
A reason to try (A reason to try)  
Give me a reason to try (A reason to try)  
A reason to try (A reason to try)

Falling from a rooftop  
Falling from a rooftop  
Shock my heart

It's like I'm falling from a rooftop  
Waiting till the doctors arrive, shock to my heart  
I'm on the edge of my last breath  
Reaching for the stars in the sky  
Give me a reason to try

It's like I'm falling from a rooftop  
Waiting till the doctors arrive, shock to my heart  
I'm on the edge of my last breath  
Reaching for the stars in the sky  
Give me a reason to try

Shock to my heart  
Shock to my heart  
Shock to my heart
