

# Wide Awake

A Skylit Drive

There's a noose around my neck I...  
I cannot breathe  
I cannot seem to find my way back from this  
This fight might be my last try  
I'm losing sleep  
I'm living in white lies  
Like fire by my side  
I'm wide awake now  
Lift me up  
Take me away  
I'm not afraid now  
Don't give up  
Take me away

I'm trapped inside with no light  
I cannot see  
The pressure pulled me under  
I'm an anchor at the bottom  
I think I'm losing my mind  
Looking for what I can't find  
I'm living in white lies  
Like fire by my side  
I'm wide awake now  
Lift me up  
Take me away  
I'm not afraid now  
Don't give up  
Take me away

The weak and the brave  
The sinners the saints  
Remember that we are all the same  
We dig our own graves  
Take me away  
I'm tired of chasing days  
Too proud to face the pain  
In the end we all find our way  
We dig our graves  
Take me away  
I'm wide awake now  
Lift me up  
Take me away  
I'm not afraid now  
Don't give up  
Take me away
