A Perfect Match

You spend your money on diamonds and pearls I'd sell my car (just) to travel the world I look broke baby - you got flash But even so we're a perfect match

You're into fashion, dinners and art I know the south park series by heart You conversate baby - I talk trash But even so we're a perfect match

We're like night and day - White and black But what we have is a perfect match When I say this - you say that But love comes easy 'cause opposites attract

You keep your clothes looking crispy & clean (alt.keep your clothes so fresh and so clean) I got holes all over my jeans You love "Grease" baby - I love "Snatch" But even so we're a perfect match

We're like night and day - White and black But what we have is a perfect match When I say this - you say that But love comes easy 'cause opposites attract

I know - we'll beat the odds together We'll keep our love intact - and prove that opposites attract
