## [Marie]

Lonely days lonely nights Without you by my side Memories and sad songs Making me feel so blue

## [Sara]

Now I know yeah I realize
I see the world with different eyes
Give me one more chance
And I'll make it all up to you

## [All]

So Have a little faith in me
Put a little trust in me
Every little thing will be alright
Every little thing will be just fine
So Have a little faith in me
Tonight

## [Dhani]

Sitting here by the telephone
I try to call but you're not home
I'm drifting away in echoes of yesterday

So have a little faith in me
Put a little trust in me
Every little thing will be alright
Every little thing will be just fine
Have a little faith in me
And I will hold you in my arms tonight

Have a little faith (yeah yeah) Put a little trust

So have a little faith in me
Put a little trust in me
Every little thing will be alright
Every little thing will be just fine
Have a little faith in me
And I will hold you in my arms tonight

Have a little faith (yeah yeah yeah)
And I will hold you in my arms tonight
Every little thing will be alright
Every little thing will just fine
Have a little faith in me
And I will hold you in my arms tonight

Have a little faith in me Tonight
