

# Shangri La

A\*teens

[Dhani:]

We got it going on  
I can't tell right from wrong  
You can say that when we kiss  
We've got lip-synch

[Amit:]

I know it's getting late  
But like a twist of fate  
My clock stops when I'm with you

[Marie:]

Though time is ticking way too fast  
We can make this moment last  
I don't want the night to end

[All:]

I can take you to my hide-a-way  
My Shangri-la, my Shangri-la  
You and I will see the break of day  
In Shangri-la, in Shangri-la

[Sara:]

C'mon let's roll the dice  
The look upon your eyes  
Says your mind's made up  
You don't have to think twice

[Marie:]

So what's it gonna be  
Will there be you and I  
Wanna try to make you see

[Sara:]

That time is ticking way too fast  
We can make this moment last  
I don't want the night to end

[All:]

I can take you to my hide-a-way  
My Shangri-la, my Shangri-la  
You and I will see the break of day  
In Shangri-la, in Shangri-la

[Marie:]

You really make my head spin  
Don't know where you end and I begin  
But it's not like I care

[All:]

I can take you to my hide-a-way  
My Shangri-la, my Shangri-la  
You and I will see the break of day  
In Shangri-la, in Shangri-la

I can take you to my hide-a-way  
My Shangri-la, my Shangri-la

You and I will see the break of day  
In Shangri-la , in Shangri-la

I can take you to my hide-a-way  
My Shangri-la, my Shangri-la  
You and I will see the break of day  
In Shangri-la, in Shangri-la
