

# After All It's Christmas

A1

I feel the joy in this Christmas time  
But something's missing in this heart of mine  
The Choirs sing that the season's here  
I always miss you this time of year

It's crowded out in Trafalgar square  
But it feels so empty when you're not there  
They're all waiting for snow to fall  
But I'm still waiting for a miracle

I left my heart underneath the tree  
I believe after all it's Christmas  
Pray the lights lead you back to me  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas time

If New Year comes and my gifts still there  
The lights come down and the tree is bare  
I'll keep it wrapped til December then  
I'll place it under the tree again

I left my heart underneath the tree  
I believe after all it's Christmas  
Pray the lights lead you back to me  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas time

Christmas morning finally  
I run downstairs excitedly  
Then to my surprise I see  
The greatest gift in front of me

You left your heart underneath the tree  
I believe after all it's Christmas  
I guess the lights led you back to me  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas

You left my heart underneath the tree  
I believe after all it's Christmas  
I guess the lights led you back to me  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas  
Oh...  
I believe after all it's Christmas time
