

# Do You Remember

A1

Looking back on yesterday  
Memories won't fade away  
I can't forget the love we made  
So beautiful , we had it all  
No use looking to the past  
We both knew it wouldn't last

But it was fun we had a blast  
So beautiful, as I recall  
Where did it go yeah...

Say do you remember on the first of December  
When we were riding on the backseat  
Turned the radio on and played our favorite song  
And there we were making out to the back beat  
My girl'd get sad and your man'd get mad  
But they don't have to know  
Do you remember singing, now?

Breaking rules we always would  
Doing things we never should  
We were so bad but it felt so good  
Do you remember I think you remember  
I wonder where you are tonight  
But I know that you'll be alright  
'Cos I see our star is shining bright  
It's so beautiful, it will never fall  
Where did you go

Come on now, sing it loud

Say do you remember on the first of December  
When we were riding on the backseat  
Turned the radio on and played our favorite song  
And there we were making out to the back beat  
My girl'd get sad and your guy'd get mad  
But they don't have to know, yeah  
Do you remember singing, now?

Looking back on yesterday
