

# It Happens Everyday

A1

What have I become  
I wish that I could go some place  
Where nobody knows you now  
Nobody knows you now  
Nobody knows you

This heart it weighs a ton  
Some memories you can't escape  
And nobody shows you how  
Nobody shows you how

Yet I still wait for you  
Living in this state for you  
Cause I believe a heart can change  
It happens everyday  
I'll wear these scars for you  
I'll reignite the spark for you  
Cause I believe a heart can change  
It Happens Everyday  
It Happens Everyday

I don't want friends around  
Still I don't wanna be alone, no no  
Somebody hold me now  
Somebody hold me now

Cause I still wait for you  
Living in this state for you  
Cause I believe a heart can change  
It happens everyday  
I'll wear these scars for you  
I'll reignite the spark for you  
Cause I believe a heart can change  
It Happens Everyday  
It Happens Everyday

Sometimes  
A sinner becomes a saint  
Sometimes  
Believers can lose their faith  
Sometimes  
We learn from our mistakes

So I still wait for you  
Living in this state for you  
Cause I believe a heart can change  
It happens everyday  
I'll wear these scars for you  
I'll reignite the spark for you  
Cause I believe a heart can change  
It Happens Everyday  
It Happens Everyday
