

# Take You Home

A1

I'm gonna take this chance to be up all night  
I wanna fix this up just the way you like  
I wanna shake the weight of the world that's right  
I gotta make the most of the soul street like

And if you think I'm talkin' too much just tell me if you need to change the pace then help me  
We got ten more minutes to go I said  
We got ten more minutes before we go

There's no regrets  
At least not yet  
And it's safe to go  
I heard it on the radio  
So I take you home

You know I need somebody to love me, yes  
You know that I won't settle for second best  
We gotta live like that, ignore the rest  
So if they all go east then we'll go west

You know I danced my life to a different beat,  
And I like it here on the edge of my seat  
Now the stage is set, and we're alone  
Where we end up later we don't know.

There's no regrets  
At least not yet  
And it's safe to go  
I heard it on the radio

So I take you home  
I take you home  
Yeah, I take you home

And if it gets too crowded then may I suggest  
that when they all go east, then we'll go west  
Come on, let's go go go.  
And where we end up, we don't know

There's no regrets  
At least not yet  
And it's safe to go  
I heard it on the radio

There's no regrets  
At least not yet  
And it's safe to go  
So I take you home
