I Don't Wanna

Yeahhh.... Mmmm-hmm..... Whoaaaa.... Oooh yea...

I don't wanna be... Be without you, be without you I don't wanna live... Live without you, live without you I don't wanna go... Go without you, go without you I don't wanna be alone

When we hooked up we sat down Made an agreement, we vowed that That we'd always be together through whatever We said that no one would ever get between us This love would never ever leave us That was a while ago But now lately it feels like I mean I feel like all we do is fight Every single night Can't make it tight, can't get it right I just wanna go back, take it way back All the way back, can we start again Do it over, can we straighten it out Can we work it out, cuz...

I don't wanna be... Be without you, be without you I don't wanna live... Live without you, live without you I don't wanna go... Go without you, go without you I don't wanna be alone

I don't wanna be... Be without you, be without you I don't wanna live... Live without you, live without you I don't wanna go... Go without you, go without you I don't wanna be alone

I can't sleep without you, think without you Eat without you, speak without you, be without you I can't even breathe without you... I can't feel with out you, deal without you, spend without you My whole world is upside down... Don't wanna go out cuz I can't ride without you Feelin like I'm gon' die without you What is a girl supposed to do? When I spend my last dime to be in your life I don't wanna be without you

I don't wanna be... Be without you, be without you Said I can't live... Live without you, live without you I can't go... Go without you, go without you Said I don't wanna be alone

Said I can't be... Be without you, be without you Said I can't live... Live without you, live without you I don't wanna go... Go without you, go without you Said I don't wanna be alone

How can this be (that it's not workin out) That it's not workin out We vowed to be always together It's hurting me that we don't talk no more It's not supposed to be this way Where did we go wrong We both made mistakes, but gotta carry on

I don't wanna be... Be without you, be without you I don't wanna live... Live without you, live without you I don't wanna go... Go without you, go without you I don't wanna be alone

Don't wanna live, no.... No.....
