

Crazy Little Party Girl

Aaron Carter

Crazy little party girl
How I love her
Partying around the world - she wants to dance
Crazy little party girl
There's no other
Party Party
Always ready to dance
Time for a party - time to take a chance
Turn up the music
And we'll dance - dance - dance
Good days are coming - lonely days are gone
'Cuz I have a little
Who wants fun - fun - fun
Everyone - needs a little time
Everyone - a reason for a smile
Everyone - wants to love someone
Everyone - wants to have a little fun
Crazy little party girl
How I love her
Partying around the world - she wants to dance
Crazy little party girl
There's no other
Party party
Always ready to dance
Don't try to stop her - don't cha wanna know
What makes you happy
Baby please don't go
I got a feeling - that you'll be alright
It's a natural feeling
And it's high - high - high
Crazy little party girl
How I love her
Partying around the world - she wants to dance
Crazy little party girl
There's no other
Party party
Always ready to dance.
