

## Get Wild

Aaron Carter

Stop... everybody get wild  
Everybody get wild  
Action, your body activates freedom  
Your mind excellerates passion  
The time has come to get wild  
Rise up and follow fusion  
Our youth is just an illusion  
Let's start a revolution  
Explore the corridores  
We'll find our restitution  
Stop... everybody get wild  
Everybody get wild  
Music, it's all around and you choose it  
To take control or you lose it  
Your way to find an escape from dancing to this song  
Power, minutes turned into hours  
Now's the time to get louder  
The light is there to be seen you're dreamin', no you've gotta  
Stop... everybody get wild  
Everybody get wild  
We've travelled so far  
To explore the mysteries of life  
And the reality of our youth  
Is overlooked by those who restrict our freedom  
Our freedom of expression, our freedom to get wild  
This is Aaron and this is my world  
And it's yours  
Stop... everybody get wild  
Everybody get wild  
Listen, they're callin' you but you're missin'  
You're standin' off in position  
A crowded room is in rage  
I'm up on stage fire  
You say you wanna go higher up and fly away you're gone,  
Ain't nothing wrong with standin', I'm commandin' you to  
Stop... everybody get wild  
Everybody get wild  
Everybody get wild.
